

From the N-K Superintendent Dr. Rae Villebrun Superintendent/Elementary Principal

As we are nearing the end of July, we have all of the vacant teacher positions filled. I am grateful to have teachers who are willing to give up their time during the summer to participate in interviews. As the people who will be working closely with our new teachers, it is important for them to have a voice in the interview process. I'm excited to start the year with a good mix of veteran and new teachers.

The buildings continue to be worked on in preparation for the new year. Changes in classrooms will be made. Sixth grade will still be on the third floor but will be moved down the hallway. Special Education has moved from the third floor to the second floor. One Fourth

Grade classroom will also be moving down the hallway. Title I/Interventionists have moved from the second floor to the bottom floor. Our K-12 DCD program will now be located on the second floor in what was the large motor room. Music class will be on the third floor.

Welcome---Ariana Russell, 1st grade; Jessie Wick, K-12 DCD Teacher; Brittney Kemi, Long Term Substitute Teacher in Elementary; Andrew McCormick, Band Instructor; Sondra Monson, 7-12th Special Education; and Jessica Waslaski, 7-12th Special Education!

Mr. Torgerson and the math department have purchased a new math curriculum for

the high school math program. This new curriculum will be an excellent resource for our math teachers as they continue to challenge and grow our students' math skills. The K-3 elementary will be purchasing a phonics/phonemic awareness program. Through professional development we have been reminded of the importance of phonemic awareness in reading instruction.

On Monday, the school board approved the final schematics for the new PreK-12 school and community learning center. The building will feature general classrooms for 2-sections per grade, specialized spaces for science, art, music, and technical education, and new fitness space includ-

ing a 3-station gymnasium, walking track, and fitness center. More details on these features and the first renderings of the building will be available soon at [NKSpartanStrong.org/nextsteps](https://NKSpartanStrong.org/nextsteps).

I am so proud of the amazing work the design team did to ensure student needs were

addressed in the final schematics. The finished design exemplifies our commitment to creating a functional, flexible, and safe environment that will meet the needs of students for years to come. Our Spartans have a lot to look forward to!
